ASEEL

ENGINEER · DESIGNER & DEVELOPER

Muharraq, Bahrain | contact@aseel.page | aseel.page | github.com/artfrmo

PROFILE

Second-year engineering student and freelance developer who builds fast, responsive websites and cross-platform apps — and manages the servers behind them. I pair engineering problem-solving with clean, detail-focused design, and I'm always learning and building something new.

SKILLS

Development	JavaScript, TypeScript, React, Vite, Node.js, Tailwind CSS, Capacitor, HTML, CSS, Git
Design	UI/UX Design, Figma, Responsive Design, Prototyping, Branding, Design Systems
Infrastructure	Server setup & management, hosting & deployment, DNS, monitoring, backups

EXPERIENCE

Freelance Web & App Developer — **Self-Employed** 2024 – Present

- Design and build responsive websites and cross-platform mobile apps using React, Vite, Tailwind, and Capacitor.
- Deliver projects end to end — UI/design, development, deployment, and ongoing maintenance.
- Set up and manage hosting and servers to keep client services secure, updated, and online.

Self-Taught Developer — **Personal Projects** 2023 – 2024

- Learned front-end development and design, building small web projects and interactive interfaces.
- Experimented with modern tooling and workflows to sharpen both engineering and design skills.

PROJECTS

aseel.page — **Personal Portfolio**

- Interactive portfolio with real-time 3D built in React, TypeScript, and Three.js.

CarSooq — **Car Marketplace App**

- Bilingual (English / Arabic) car-marketplace app for the Bahrain market — listings, filtering, in-app messaging, and a premium boost system (React + Capacitor).

EDUCATION

Engineering
Bahrain Polytechnic
2024 – Present · 2nd year

SERVICES

Web Development · **Server Management** · **App Development** · **UI/UX Design**
